in these eleven essays scholars from diverse disciplines address the argument reception and implications of the dialectic of sex and make a compelling critical case for its contemporary salience

conventionally analysts of social change perceive organizational initiatives in binary terms projects are seen as being either top down or bottom up local culture is seen as being either modern or traditional challenging this restrictive dualism this important book argues that social change emerges in a nonlinear circuitous and dialectic process of struggle in support of their approach the authors identify four dialectic tensions as being central to the process of organizing for social change control and emancipation oppression and empowerment dissemination and dialogue and fragmentation and unity argue for a dialectic approach which acknowledges that contradictory tensions can and do co exist for example a project can control beneficiaries with tough conditionalities even as it emancipates them and draw upon cases set in various contexts social justice academic corporate artistic and others from both developing and developed countries

a timely new critique of capitalism s persistent failure to value nature capitalism is typically treated as a force for relentless commodification yet it consistently fails to place value on vital aspects of the nonhuman world whether carbon emissions or entire ecosystems in free gifts alyssa battistoni explores capitalism s persistent failure to value nature arguing that the key question is not the moral issue of why some kinds of nature shouldn t be commodified but the economic puzzle of why they haven t been to understand contemporary ecological problems from biodiversity collapse to climate change she contends we have to understand how some things come to have value under capitalism and how others do not to help us do so battistoni recovers and reinterprets the idea of the free gift of nature used by classical economic thinkers to describe what we gratuitously obtain from the natural world and builds on karl marx s critique of political economy to show how capitalism fundamentally treats nature as free for the taking this novel theory of capitalism s relationship to nature not only helps us understand contemporary ecological breakdown but also casts capitalism s own core dynamics in a new light battistoni addresses four

different instances of the free gift in political economic thought each in a specific domain natural agents in industry pollution in the environment reproductive labor in the household and natural capital in the biosphere in so doing she offers new readings of major twentieth century thinkers including friedrich hayek simone de beauvoir garrett hardin silvia federici and ronald coase ultimately she offers a novel account of freedom for our ecologically troubled present developing a materialist existentialism to argue that capitalism limits our ability to be responsible for our relationships to the natural world and imagining how we might live freely while valuing nature s gifts

the concepts of alienation and its overcoming are central to marx s thought they underpin his critique of capitalism and his vision of future society marx s ideas are explained in rigorous and clear terms they are situated in the context of the hegelian ideas that inspired them and put into dialogue with contemporary debates

the main terrain of methodological disputes in the social sciences is empirical research including the delineation of legitimate research questions allocation of funding for projects and employment in the profession yet we still lack practical answers to one of the most basic questions how should researchers interpret meanings the contributors take seriously the goals of both post modernist and positivist researchers as they offer detailed guidance on how to apply specific tools of analysis and how to circumvent their inherent limitations readers will understand what is at stake in selecting from discourse speech acts and semiotics or even content analysis researchers will be able to decide when to combine tools drawn from different analytical traditions perhaps discourse analysis to inform the construction of a dictionary for context sensitive computerized coding the results will be deeper interdisciplinary understanding and better research

this book systematically analyzes the relationship between geography and communication and shows how geographical approaches open up familiar and unfamiliar aspects of communication for analysis and discussion
